## Multinational Program Management

This course prepares students to be effective in an international defense acquisition program. The Multinational Program Management course emphasizes the U.S. policy of encouraging armaments cooperation and enhancing interoperability with our allies. Key national, DoD, and Service policies on international cooperative development, production, and support are explored.

**Objectives:** Students who successfully complete this course will be able to:

- comprehend the requirements necessary to participate effectively in an acquisition program that involves participation by foreign governments and their industries;
- understand key national, DoD, and Service policies on international cooperative development, production, and logistics;
- recognize the various international defense programs related to acquisition (data exchanges, Nunn Amendment Programs, foreign comparative testing, coalition warfare programs, bilateral and multilateral projects and programs, and security assistance—Foreign Military Sales (FMS)); and
- prepare, formulate, and support an FMS, Direct Commercial Sales (DCS), cooperative or hybrid international program.

**Who Should Attend:** This assignment-specific course is for all acquisition personnel who require international acquisition training at Level II for any career field, including Program Managers and program management staff, key government laboratory and center personnel, Defense and Service headquarters staff, and Office of Defense Cooperation personnel and attachés.

**Prerequisite:** None

**Length:** 5 class days

**Method of Delivery:** Resident

## International Security and Technology Transfer/Control

This course provides a comprehensive overview of U.S. law, policy, and regulations that govern International Security and Technology Transfer/Control (ISTT/C). Students will learn the procedures for the export and import of defense and dual-use equipment and services, for handling classified and controlled unclassified program information, and for foreign visit control. PMT 203 is designed for the acquisition professional, including program office personnel, Defense and Service headquarters staff, and Defense cooperation personnel and attachés associated with international acquisition. The course has five components: acquisition documentation; security and data transfer; export/import licensing; contractor operations; and laws, policies, and procedures.

**Objectives:** Students who successfully complete this course will be able to:

- identify, analyze, and apply the laws, policies, and processes necessary to develop system and contractor classification guidance for the control of critical program information;
- understand the national security policy issues and export/import licensing constraints (as defined by the Departments of State, Commerce, Treasury, and Customs) and evaluate their effects on domestic and international DoD programs;
- recognize hostile and friendly foreign power elicitation and technology collection methods and techniques and develop methods of protecting information; and
- describe the U.S. Government's ownership, usage, and transfer rights to foreign governments and contractors for intellectual property.

**Who Should Attend:** This assignment-specific course is for all acquisition personnel who require international acquisition training at Level III for any career field. The course is also appropriate for foreign liaison office personnel or DoD representatives who deal with other nations or international agencies.

**Prerequisite:** None

**Security Clearance:** A SECRET security clearance is required. Due to security restrictions, allied students are ineligible to attend under most circumstances.

**Length:** 5 class days

**Method of Delivery:** Resident

**PDS Code:** PAK
